

Strengthening the Catholic Church in Northeast Ohio

## Catholic Education Grant Awards May 2013

School	City	Intended Use of Funds
Academy of St. Adalbert	Berea	Update bathrooms to be functional for students of all abilities. Modify two classroom door openings to meet city code for fire safety and security.
Academy of St. Adalbert	Berea	Roof replacement is urgent since repairs have not cured the problem of water damage. The upstairs rooms house expensive technology equipment.
Academy of St. Bartholomew	Middleburg Heights	Need to modify existing building security system with updated, efficient equipment.
All Saints of St. John Vianney	Mentor	To equip six reopened classrooms with an ActivBoard, laptop, iPad and Apple TV and desks and chairs due to the influx of 104 new students .
Archbishop Hoban HS	Akron	Providing funding for phase 2 of Hoban Connected in which the school has already invested. Purchase of Apple TVs, upgrading teacher iPads and accompanying technology.
Archbishop Lyke	Cleveland	Ensuring the security and safety of staff and students through replacing entrance and exit doors, updating PA system in main office, and replacing all existing windows in entire building.
Archbishop Lyke	Cleveland	Creation of a mobile technology lab with 60 iPads and needed accessories and hardware. Will use eRate funds to update facilities to accept the lab.
Archbishop Lyke -Elem Campus	Cleveland	Provide network upgrade: wireless connectivity, rewire computer lab, add network drops to classrooms and office.
Assumption Academy	Broadview Heights	Provide a wireless network and connectivity to allow the use of computers and iPads throughout the building.
Beaumont School	Cleveland Heights	The grant is laudable in that the school wants to make its art wing compliant

		with ADA requirements to assist students and teachers with disabilities to use the wing.
Benedictine HS	Cleveland	Updating fire and adding security systems to science/gym wing of the school and making the systems one.
Cleveland Central Catholic HS	Cleveland	Seeking funding for new textbooks for theology curriculum.
Cleveland Central Catholic HS	Cleveland	The Main Classroom building of the school is in dire need of removal and replacement of the roof (1921). It leaks in several places and poses a safety hazard. Currently bids are being received.
Communion of Saints	Cleveland Heights	Wiring of classrooms, new wiring closet and wireless access points are needed for better, faster connectivity.
Elyria Catholic HS	Elyria	Compliance with the ADA, providing access to the second floor for the physically challenged by installing a vertical wheelchair lift.
Gesu	University Heights	Improving safety in the school with updates to classroom doors and installation of classroom intruder lockset hardware as well as a camera and video intercom system.
Holy Family	Stow	Restructure technology infrastructure, hardware and software, new cabling, servers, router and switches, wireless connectivity.
Holy Family	Parma	Installation of security cameras in the school building.
Holy Name Elementary	Cleveland	To meet the objectives of the school's technology plan the school would install White boards, the Mimeo SmartBar, and a lumen projector to better instruct the students.
Holy Name Elementary	Cleveland	Replace classroom doors with fire-rated and secure doors and frames.
Holy Name HS	Parma Heights	Providing ActivBoards in three theology classrooms. Since government funding cannot be used for religious education, this grant would bring our theology classes into line with our other subject areas.
John Paul II Academy	Garfield Heights	Electrical upgrade of building and thermostat installation. The only on/off switch is on the boiler itself, so there is no means of regulating the heat. It would save money to have the thermostats installed.
John Paul II Academy	Garfield Heights	Replacement of outdated computers and adding three ActivBoards.
Lakewood Catholic Academy	Lakewood	Updating the cafeteria with more efficient lighting, new tables some of which can be also converted into seating for gatherings. The floor contains asbestos that will have to be removed and the floor will be replaced with a new low maintenance commercial floor.

Magnificat HS	Rocky River	Provide funding for enhancing the Magnificat HS Service Programs and Immersion Service Retreats.
Mary Queen of Peace	Cleveland	Replacement of windows and doors for security and energy efficiency.
Mary Queen of Peace	Cleveland	Improving the computer lab with new tables and desktop computers to improve safety in the lab and a more supportive learning environment.
Mater Dei Academy	Wickliffe	Modify and upgrade present security for the school. The church of Our Lady of Mt. Carmel is situated in the center of the school which makes security for the school difficult with strangers enter the building daily. The PA system needs upgrading to reach all parts of the school. Faculty and Staff need training for dealing with intruders. A keyless entry system is needed.
Metro Catholic School	Cleveland	Renovation and greening of student and faculty bathrooms. The buildings are very old.
North Akron Catholic	Akron	Upgrade building-wide security through two-way communications between classrooms and office, install surveillance cameras, and two SmartBoards with projectors.
